

Beginning 2019-20, all public postsecondary institutions in Kentucky will use the indicators of readiness established by the Council on Postsecondary Education as measures of college academic readiness. Upon admission to a public postsecondary institution, students scoring at or above the established scores will not be required to complete developmental or corequisite coursework and will be allowed entry into college credit-bearing coursework that counts toward degree credit requirements.

| Curriculum Pathway                          | ACT Score                   | SAT Score                                                                                           | KYOTE                                               | GED College Readiness                                   | ALEKS                                  |

Per the College Readiness Indicators Workgroup, all exam scores remain an indicator of academic readiness for a minimum of twelve (12) months from the date of administration. Individual institutions may extend the length of time scores remain indicators of academic readiness. However, an institution shall not determine academic readiness using scores received from exams taken more than four (4) years prior. Other exams, prior college coursework, and placement exams may be used for course placement after a student is admitted to a postsecondary institution.
